

DECISION SYSTEMS PLUS, INC.

"We make computers & phones work for you"

Using Communications to Grow Your Business

Increasing revenue, managing costs, and staying connected to customers, employees, partners and suppliers, are your keys to operational success. And at Decision Systems Plus we provide the communications solutions that respond to these business needs. Our value-added applications, scalable deployment options and custom solutions are designed to ensure you have a strategic plan that goes beyond just your communications requirements. Inter-Tel addresses operational performance across departments and functional workgroups such as sales and marketing, facilities management, administration, materials and human resources—a total ownership value you won't find anywhere else.

Your Single-Source Communications Provider Since 1985

Decision Systems Plus provides enterprise with end-to-end business communications solutions including equipment, applications, carrier services, planning and provisioning, and the ability to add emerging technologies that respond to business needs—strategically connecting financial and application objectives to deploy tangible, practical business solutions.

Enterprise Focus

Inter-Tel redefines the communications landscape, delivering technologically-advanced communications for the small- and medium-sized enterprise. This focused commitment along with Inter-Tel's consistent financial strength and growth, enables Decision Systems Plus to provide businesses with value-driven communications solutions that meet your needs today and tomorrow.
